Different kinds are found in almost all the seas, rivers and lakes on the globe. They are of various sizes and forms. We shall confine ourselves, in this article, to some varieties found only in tropical seas. Some of these perform an immense and important work, no less than the building of islands for man to live on. One tiny creature cannot, of course, do much toward such a grand result; but the large family working together in innumerable numbers, beautifully illustrate the truth of the axiom, "In union is

strength." The polyps, as has been said, vary in size, some being several inches long, organs which higher animals have: consequently, they are without sense or

A polyp may be described as a sack or bag, with an opening at one end. This opening is surrounded by a fringe of fine, threadlike things called tentacles or feelers. We will call them arms, also, because the animal uses them not only as feelers, but also to seize, grasp, hold and push with. The opening into the back is called a mouth, not because it looks like one, but because of its admiting food to the sack-like stomach. Weak and defenseless as this odd little mite of a being is, when seized by enemies more powerful than itself, it shows itself brave in securing its own preyamong creatures

almost always is-it stretches out its comes within their reach is quickly seized and pushed into the stomach. Sometimes the thing seized is larger than the pelyp. But that makes no difference as to the victim's fate, provided it is not strong enough to free itself. It is pushed and crammed into the captor's mouth, and held there by its many arms until it

worms in the water as well as on land-often come too near the polyp for their own safety, and, in spite of all their squirming and wriggling, they have to go the way of all flesh that is not stronger than the polyp.

the only way of doing so is either to keep it out of water until it dies, or grind it to atoms. Possibly even then the atoms would live, for if a polyp is cut into two parts, the mouth will keep on swallowing, even though the food drops through the opening made by the these pieces will live right on, and, strange to say, each one will grow until What did it do? Die? Not a bit of it, kind. Everything has been given it peared to be conscious of its false position | server. and made many unsuccessful efforts to put itself right again before the world. The baby polyps of one branch of the one polyp becomes the parent of many. folks for the remainder of my walk. As soon as the youngster becomes of age more social turn. THE CORAL MAKING POLYPS.

How wonderful all heir sports; for the children loved is the economy of Nature. In her vast hervery dearly, and tried to make her workshop nothing is wasted. Even the forget how unlike them she was. But marvelous beauty and use,

The coral-making polyp used to be considered a submarine plant, because its lovely forms and bright colors resemble flowers so much. Later, it was supposed to be both animal and vegetable. But still more recent investigations have decided naturalists to class it among the simplest forms of animal life. No creature that God has made is too small or humble te teach proud man up girl, but always poor, wee deformed It is almost impossible to kill one of these strange little animals. Probably

some lesson. One of the lessons the little polyp teaches us is, the value of persevering industry; and another is this, that it is our duty to contribute cheerfully each our part, if only a mite to the general good of the family and community in which our Maker has We have seen on what a simple plan stomach, mouth and arms is made.

it did not strike its prey; and not until it becomes a complete polyp. If only an Yet, what more does it need for the life it leads, and the uses it performs? Trust in God. Leave God to order all thy ways,
And hope in Him whate'er betide,
Thou'lt find Him in the evil days
Thy all-s. fficient strength and guide;
Who trusts in God's unchanging love
Builds on the rock that nought can move.

What can these anxious cares avail, What can these anxious cares avail,
These never-ceasing means and sighs?
What can it help us to be wall
Each painful moment as it flies?
Our cross and trials do but press
The heavier for our bitterness.

Only thy restless heart keep still,
And wait in cheerful hope; content
To take whate'er His gracious will,
His all-discerning love, hath sent.
Boubt not our inmost wants are known
To Him who chose us for His own.

He knows when joyful hours are best, He sends them as He sees it meet; When thou hast borne the fiery test, And art made free from all deceit,

He comes to thee all unaware, And makes thee own His loving care. Nor in the heat of pain and strife,
Think God hath cast thee off unheard,
And that the man, whose prospering life
Thou enviest, is of him preferr'd.
Time passes and much change doth bring
And rets a bound to everything.

All are alike before His face;
"Tis casy to our God most high
To make the rich man both poor and base,
To give the poor man wealth and joy.
True wonders still by Him are wrought,
Who setteth up and brings to nought. Sing, pray and swerve not from his ways. But do taine own part faithfully Trust his rich promises of grace. So shall they be failfilled in thee: God never yet forsook at need

How to Pray Aright. All nations have a word that means prayer. Prayer of some sort forms a part of worst everywhere. But is it of the right king as it prayer? To many,

Afternoon. Melody in the Heart.

It is not allowed a believer to be always on the mount of ecstacy, nor all the while in the shadowed valley. The disciple can not be exempt from tribulation or distresses. He must have his Gethsemane and his Calvary. For him there

is some bitter cup, piercing spear. Yet, netwithstanding, he shall joy even in tribulation. His soul shall have its templed glory, its celestial peace and its anthems of rapture. His exalted and exalting faith will enable him to catch the notes of the celestial choir, and to hear the strains of the harps before the throne. Nothing can put so much music into a man as the consciousness of being as one with Christ. Selfishness of whatever sort, begets moroseness, and fault-finding, and distrust. But whoso is reconciled in his heart, mind and will,

be able to testify: "My life flows on in endless song, above earth's I catch the sweet though far off hymn, that hails a new creation Above the tumult and the strife I hear the music It finds an echo in my heart, how can I keep from

Why a Schoolmaster Left Town. A Virginia City man, says the Chronicle, who formerly taught school in Honey Lake valley, has been telling Dan De Quille why he left that rural region. While employed as a teacher, it seems he "boarded around," and one night, while at the house of an old ranchman, gave one of his boys some extra instruc tions in geography. The old man over heard him telling the boy that the earth turned around once in twenty-four hours and "kicked" against it. He said he had heard such stuff talked, but there was nothing in it, as he could prove. He e ask and receive filled a tin cup with water, and set it on the top of his gatepost, saying: " Now, young feller, if the world fleps

over, as you say, the water will be all out of that cup in the morning, and you the drift of British agitation, as directed sun.
